

Jing Jiao (焦静), Ph.D.

### Scholarship Chair

Dr. Jing Jiao is a biomedical research scientist focused on developing cancer-targeted therapy. Dr. Jiao obtained her Ph.D. from University of Alabama at Birmingham. She did her postdoctoral training at Department of Molecular and medical Pharmacology at UCLA, where her research focused on prostate cancer model and embryonic stem cells. She further explored her cancer research into tumor microenvironment and therapeutics on skin cancer at UCLA. Currently she is a scientist at Jackson laboratory at Sacramento. Besides her research endeavors, a major part of her effort involves mentoring students at all levels, from undergraduates and graduate students. She always has passion on promoting talents and excellence in young generation. Dr. Jiao hope our SCCF can help young people to achieve their academic excellence, understand better our Chinese culture and develop strong sense of social responsibilities.
